TWOOD, VIOLETT 4 CO.'S COTTON REPORT. Special to the Gazette NEW ORLEANS, La., April 27 .- Atwood,

Violett & Co. say: Futures—We feel we have a right to call during the past several months, that a depression in spots would occur some time during the season of a serious character, which now seems about being realized, and friends of these impressions. In view of cur opinions of a very large crop, we fore-saw a large accumulation in America, and have therefore advocated the short side of cotton. Our spot quotations are entirely

spots to-day, sold and closed at Sc, although middling is quoted at 8.44c, the proper quo tation would be 84c, at which price June and July would show to be at a premium to night, instead of apparently at a discount. The pressure to sell by holders is great, with but few buyers. Too much cotton and too little demand expresses the outlook.

The port movement this week looks very large again, as receipts for two days are 3000 larger than the total movement for the same week last year. Receipts to-day are 11,000, against 2100 last year. Liver-pool improved 3-64d, but lost 1-64d. pool improved 3-04d, but lost 1-64d. New Orleans opened 4 points better, but closed 7 points lower than Saturday. New York opened 6 points higher, and closed 1 to 2 points lower. Liverpool should be several points lower tonorrow.

GOVERNMENTS, STOCKS AND BONDS.

NEW YORK, April 27.—The stock marke to-day felt the influence of the realizing sales even more than the last few days of last week, but the demand which has sprung up from outside sources was a great sustaining element in speculation and enabled the list to successfully resist not only realizations, but also efforts of reaction to bring about materially lower range of prices and the influence of further en-gagements of gold for exports. The close was active and weak at the
